

GROPU 14

1. USER STORIES (All Roles)

Student

- As a student, I want to register and log in so that I can access the system.
- As a student, I want to submit my internship details so that my placement is recorded.
- As a student, I want to write weekly logs so that I can track my progress.
- As a student, I want to submit my weekly logs for review so that my supervisor can evaluate them.
- As a student, I want to view feedback from my supervisor so that I can improve.

Supervisor

- As a supervisor, I want to view student submissions so that I can review their progress.
- As a supervisor, I want to approve or reject weekly logs so that I can ensure quality work.
- As a supervisor, I want to give feedback on logs so that students can improve.
- As a supervisor, I want to evaluate students based on criteria so that I can grade them.

Admin

- As an admin, I want to manage users so that I can control access to the system.
- As an admin, I want to assign supervisors to students so that supervision is organized.
- As an admin, I want to monitor all internship activities so that the system runs smoothly.

3. WORKFLOW STATES (VERY IMPORTANT)

These match your assignment exactly:

Weekly Log Workflow:

1. **Draft**
 - Student is still writing the log
 - Not yet submitted
2. **Submitted**
 - Student submits the log
 - Waiting for supervisor
3. **Reviewed**
 - Supervisor has checked the log
 - Feedback may be added
4. **Approved**
 - Log is accepted as complete
 - No more changes needed

Simple Flow Representation:

Draft → Submitted → Reviewed → Approved
