

PostgreSQL Setup – ILES-PROJECT

Steps

1. Installed PostgreSQL
2. Created database 'iles_db'
3. Installed psycopg2-binary
4. Configured Django settings using django-environ
5. Applied migrations

Environment Variables

- DB_NAME: iles_db
- DB_USER: postgres
- DB_PASSWORD: password
- DB_HOST: @localhost127.0.0.1
- DB_PORT: 5324

Result

Django successfully connected to PostgreSQL and tables were created.
